

TFC STRIPER

Technical Data Sheet

SYMBOL	pH
P-21	11

Alkaline product designed for thorough washing surfaces and removing old and damaged polymer coatings from them. Very effective for removing stacked wax and soap layers. Quickly dissolves all kinds of coatings. Low-foaming, does not damage cleaned surfaces. Recommended for using before applying TFC COATING.

COMPOSITION:

- < 5% phosphates
- < 5% amphoteric surfactants
- < 5% non-ionic surfactants
- auxiliary substances not classified as dangerous

USAGE:

Working solution:

- delicate surfaces: 5-10% solution (0.5 - 1 l / 10 l of water)
- rest of the surfaces: 10-30% solution (1 - 3 l / 10 l of water)

Thoroughly wash down the surface with water and check its pH before applying polymer coating.

TFC STRIPER

Technical Data Sheet

DANGER:

- Causes serious eye irritation.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- If eye irritation persists: Get medical advice/attention.

SELL-BY DATE:

36 months from the production date.

Production date/series and expiration date are stated on the packaging.

ADDITIONAL INFORMATION:

Additional information can be found in safety data sheet.

Contaminated containers should be completely emptied. Several times rinse the container promptly after emptying. Empty container can be stored in containers for collection of plastic packaging, or can be delivered to specialized company for recycling.

Disposal should be in accordance with the national/international regulations
